

POST-PAYMENT STRATEGIES TO CAPTURE REVENUE RELATED TO ILLINOIS WORKERS' COMPENSATION CASES

COMPLIMENTARY EDUCATIONAL AND TRAINING SEMINAR

Learn strategies, skills and solutions to collect additional workers' compensation revenue

OVERVIEW

Post-Payment Strategies for Revenue Collection is an educational and training conference seminar brought to you by Avidean Healthcare Solutions, a leading healthcare solutions company that provides workers' compensation resources including certified professional coders, billers, lawyers, medical providers and other health care professionals for the capturing of otherwise "lost" or difficult to collect revenue associated with complex coding, payment and other post-payment hurdles such as Illinois Workers' Compensation settlement contracts and Illinois Workers' Compensation Commission ("IWCC") decisions. Upon successful completion of this interactive program, you will be knowledgeable on effective tools and techniques that will result in increasing your organization's revenue outcomes.

TARGET AUDIENCE

All management and team members responsible for revenue generation including coders, billers, Chief Financial Officers, legal professionals and other health care professionals working with Illinois hospitals, surgery centers, physician groups, medical providers, physical therapists and other providers.

EDUCATION AND TRAINING

Workers' compensation faces unique challenges that are different from all other payor types. For this reason, education and training is exclusive to Illinois workers' compensation issues. We will address effective strategies related to post payments of workers' compensation claims including underpayments, incorrect payments, non-payment, appeal activities, IWCC settlement contract and IWCC decision payment challenges.

GAIN STRATEGIC INSIGHTS AND CRITICAL UNDERSTANDING OF ILLINOIS WORKERS' COMPENSATION
